## **Laurel Highlands Landscaping Receives Customer Praise**

Englewood based Laurel Highlands Landscaping owner Bill Zett received high praise for his work around the home of Steve and Nancy Paxton, South Sarasota county homeowners. For both esthetic and privacy reasons, the Paxtons have wanted to have the area around their lanai and pool professionally landscaped. They chose Zett's firm to design, select the plants, and do the installation.

"Recently, more and more homes have been built around us, and we wanted something that would provide greater privacy, be colorful and interesting to look at, and require little maintenance", Steve Paxton explained.

Zett submitted several designs using his Computer Aided Design (CAD) program. "This really helped Steve and I visualize what the finished project would look like. Bill included various colorful, drought tolerant plant arrangements and unique mulching touches comprised of washed shell and river rock," Nancy enthused.

"Bill also reacted quickly to a late addition to the project: a Christmas Palm for our front yard, for which he made a special trip to the nursery," Nancy recalled. "He did an excellent job. He showed up on time, worked diligently and infused a real artistic sense of design in the project. He also gave us excellent advice on promoting the growth of our new plants ... and his prices were reasonable."
